

Wayzata Raingarden

What is this Project?

Master Water Stewards Kathleen & Scotty installed a large raingarden at Kathleen's home in Wayzata. This garden will help mitigate flooding issues she has had in the past. It collects rainwater from the roof and garage, preventing it from pooling in the backyard.

Why Install a Raingarden?

This project will keep rainwater on the property, allowing it to soak into the ground rather than run into storm drains, taking pollutants with it. This helps keep our lakes and rivers clean!

Project Details:

- ◆ **275 sq ft raingarden captures water from 20,798 sq ft of property**
- ◆ **Soaks up about 47,314 gallons of rainwater each year!**
